The Pearl range makes luxury affordable for everyone. The three models are all specifically designed to be easy to use. A vertical and horizontal canopy, both of which are fitted with ten tubes, and a bed/canopy combination with twenty tubes. The vertical canopy takes up least space and is ideal for somewhat smaller bedrooms.

All models are automatically equipped with a thirty-minute timer. In the canopy/bed combination the surface of the bed is extremely comfortable. The acrylic sheet is held in place by a click strip system and can simply be removed, making it easy to clean or change the tubes. The canopy is protected by a mesh.
